PREDICT GREATEST LOTUS BLOOM

WATER TOWER GRANT GETS FINAL OKAY

Village Will Receive \$3,000 from the Federal Government

Final grant requisition on the Antioch waterworks project has been approved and forwarded to the Public Works Administration at Washington, D. C., according to advices received today from Village Attorney E. M. Runyard.

The original grant from the PWA was for \$3,000 none of which has been received to this date.

The cost of the entire project, including the new water tower, additional land, painting and attorney's and engineer's fees, totaled \$10,140.80, and the total paid to date by the village is \$7,140.20, according to Village Clerk R. L. Murrie.

The contract price with the Chicago Bridge and Iron Works for the erection of the tower was \$8,740, and of this amount \$6,340.20 has been paid. For painting the tower the contractors will receive an extra \$250, Murrie said.

Other expenditures in connection with the project includes \$1700 for additional land purchased and \$230 attorney's fees and \$75 engineer's fees. Payments on real estate to date total \$800.

Kenosha County Dairymen To Hold Annual Picnic Wed.

The annual Kenosha County Dairymen's Picnic and Field Day will be held Wednesday, July 18, at the Mrs. Mathilda Blehr farm located on the Kenosha-Racine County line road, 2 1/2 miles southeast of Union Grove and 3 miles west of Highway 41. The picnic is sponsored annually by the members of the East Kenosha Dairy Herd Improvement Association.

E. V. Ryall, county agricultural agent, and Milo Hill, fieldman for the Association are in charge of the program and picnic arrangements. The program will start promptly at 10:00 A. M., and continue throughout the day.

The following men are on the program: George Briggs, extension agronomist, University of Wisconsin; I. F. Hall, economist, University of Wis.; A. J. Cramer, extension dairyman, U. of Wis.; and F. J. Knox, Chicago Pure Milk Association.

Music for the occasion will be furnished by Friedens' Lutheran band, with Frack Haubrich, directing. Ball games and other entertainment will be held during the afternoon.

The programs presented in past years have attracted dairy farmers from all parts of the state and northern Illinois.

The picnic is open to all persons interested in dairy improvement methods. An excellent program is assured and all dairy farmers and their families are urged to attend.

Cross Lake Grass Fire Threatens Homes

A grass fire originating on the C. B. Martin estate Cross Lake, was extinguished by members of the Antioch Volunteer Fire Department late Thursday afternoon, July 5, after the flames had approached the buildings to the southwest, endangering the cottages.

Express Company Starts Delivery Service Here

Express deliveries will be made within the village limits of Antioch, starting Monday, according to George Kuhaupt, local agent for the American Railway Express. Contract for deliveries has been awarded to Merrill Cunningham.

MOOSE CLUB TO SPONSOR DANCE

A public dance sponsored by the Moose Club will be held Saturday night, July 14, at the Moose Hall. Old time dances. Admission 25c.

Husband of Former Antioch Girl Dies

Funeral services were held yesterday morning at 9 o'clock at St. Mary's Church, Racine, Wis., for John Galecki, who passed away Monday morning. Interment is in the Holy Cross Cemetery.

He is survived by his widow, the former Gladys Davis of Antioch, with whom he was united in marriage about four years ago. Several from Antioch attended the services.

Local Legionnaires Attend Banquet In Honor of Kapschull

Eight Antioch Legionnaires were among the nine hundred present Tuesday evening at the banquet held in honor of Commander Charles Kapschull at the Vernon Country Club, west of Deerfield. Kapschull is completing his term and retiring as commander of the Illinois department of the American Legion. The principal address was given by Edward Hayes, national commander of the American Legion, who recalled Mr. Kapschull's record as an officer overseas and lauded his ability and bravery as a soldier and citizen.

He also spoke of Kapschull's untiring efforts in behalf of the disabled veterans. Colonel Hugh Scott of Hines Memorial Hospital added to this tribute, and stated that the American Legion, through the leadership of Commanders Hayes and Kapschull, is responsible for having the Economy Act dissolved by legislature and restoring pensions and allowing hospitalization on the old basis.

Those attending from Antioch were Commander Walter Hills, Otto Kiasa, Ray Webb, Laurel Powles, Dr. L. J. Zimmerman, Arthur Mapletorpe, George Garland and Dr. G. W. Jensen.

Behold Bigger And Better Fish In Chain O' Lakes

Jim Stearns Takes Honors in Unofficial Potato-Growing Contest

'Tis said when some forlorn young thing is denied the object of his or her affections that there are better fish in the sea still uncaught. What is true figuratively is also true literally, particularly this season in the Chain O' Lakes region about Antioch.

The latest reports of fishing prowess run thus: Ten small-mouthed bass, averaging about two pounds each, caught last week by Bill Brooks in Nippersink Creek; two three-pound black bass caught in Lake Marie Tuesday evening by Ben Burke.

Pass the Potatoes, Please! The more agriculturally inclined of our village citizenry have been interested in an unofficial potato-growing contest which has been conducted during the past few weeks. Headquarters have been located at Murrie's Standard Oil Gas Station, where specimens are brought in and put on display.

To date, Jim Stearns has been awarded the honor of producing the largest potato, with Mike Burke and Bill Gray close runners-up. Judging was done by Chase Webb. Stearns' exhibit was grown on his plot of ground on the Morley farm.

There will be a card party for the benefit of the Episcopal Guild of St. Ignace Church at the home of Mrs. Sidney Kaiser, Monday afternoon, July 16, at 2 o'clock. Refreshments. Everybody welcome. Price 25c.

Tom Bartunek and Joseph Pilot, police sergeants of the Berwyn Police Department visited at the home of Mr. and Mrs. C. E. Soukup and enjoyed a fishing outing. Both went home with a few bass.

Sunday guests of Mr. and Mrs. Fred Peterson and family were Mr. and Mrs. Thomas Lindberg and family, Mr. and Mrs. Robert Stone and family, Miss Dorothy Lindberg, Clarence Howerberg, Howard Lindberg, and Miss Eleanor Roedy, all of Chicago.

Mrs. Eva Logan is the guest of her mother, Mrs. Clara Felter, this week.

Girl Drowns In Round Lake When Craft Capsizes

Recovery of the body of Jean Rydzy, 17, of Chicago, who was drowned Sunday in Round Lake when she was thrown from a boat, was effected Monday evening by Deputy Game Warden Ebbel Steffes and Jake Shanyfelt, two of the crew of rescuers who had been dragging the lake since the fatal accident.

A verdict of accidental death by drowning was returned at the inquest held at Strang's undertaking parlors in Grayslake Tuesday morning.

The tragedy occurred, according to witnesses, when the girl and five companions were thrown into the water. The boat capsized after it had been rocked too far by two men occupants. All managed to cling to the overturned craft except the Rydzy girl who never rose to the surface of the water.

SLAGEL MUST BEAT McMILLEN TO EARN MATCH WITH LONDOS

Coast Sensation Will Try to Stop Jim Tomorrow Night

Sol Slagel, Pacific coast sensation and contortionist mat star, will meet Jim Londos for the heavyweight wrestling championship of the world, if he conquers Jim McMillen tomorrow night in Renshan's open air arena at Round Lake.

This is the word given out by Ed White, manager of the world's champion, who announced that Slagel will be given a chance at the title if he triumphs over the Antioch star. White will be at the ringside tomorrow night to watch the contortionist in action against the flying tackle specialist from Antioch.

Beat Savoldi Slagel was just a prelude wrestler until the night of June 26, 1933, but on that eventful evening he scored a victory over "Jumping" Joe Savoldi, and in that triumph established him as one of the top notch grapplers in matland.

Slagel handed Savoldi the worst beating the ex-Notre Dame grid star ever received on the mat and made Joe jump the ropes. Not only that, but clad only in his bathrobe and slippers, Savoldi dashed out of the arena and hailing a taxi, away he went.

The second bout that headlines this great card, Lou Plummer will meet a wild and woolly terror from Texas, Rick Raines, who ranks along with Plummer and Zaharias as one of the roughest matmen in the game.

"Buckets" Goldenberg, Milwaukee's wrestling sensation who made a big hit with the fans on the first card at Renshan's by throwing George Mack, will meet Hans Bauer. Bauer also proved a fan pleaser when he tossed Rudy Hoffman on this same card.

In the curtain raiser, George Mack, Bohemian champion will wrestle "Cowboy" Eckely of Wyoming.

In case of rain the show will be held the following night.

Mr. and Mrs. Charles Lux returned Saturday afternoon from Pittsfield, Ill., where they were called by the sudden death of Mrs. Lux' mother, Mrs. Sarah Dunham. Funeral services were held Friday. Mrs. Lux resumed her studies at the National Kindergarten School in Evanston Monday.

Mrs. Will Runyard and Mrs. Eva Barnstable were guests at a luncheon Saturday for Noble Grands and Vice Grands at the home of Mrs. Alma Mergenthaler, Wilmette, Ill., president of District No. 3, Rebekahs.

Bjill Keulman and Bob Bishop visited Howard Schneider in St. Theresa's hospital, Waukegan, Tuesday. Schneider is improving satisfactorily after receiving injuries in an auto accident nearly two weeks ago.

Chase Webb and E. Morley Webb spent yesterday in Chicago.

NEWS MAKES BARGAIN SUBSCRIPTION OFFER

Readers May Avail Themselves of Several Worth-while Publications

When Old Man Depression had firmly established himself in our midst many readers of magazines and newspapers were obliged regretfully to discontinue their subscriptions to some of the publications which they most enjoyed.

A certain group, to avoid any immediate outlay of cash, purchased each daily, weekly or monthly issue of their favorite publications, thereby resulting in a "false economy" which in the end totaled an unexpectedly large amount.

Club Plan Sponsored To meet the more limited means of our patrons' purses, the Antioch News some time ago reduced the subscription price from \$2.00 to \$1.50 a year. Now the News is making a genuine bargain offer to thrifty readers, whereby they may subscribe to the Antioch News for a year and two well-known magazines for only \$2.00, the former subscription price of the News alone.

The magazines available with this offer are divided into two groups, one to be selected from each group, or two from the second group.

Included in these groups are the Detective, Better Homes and Gardens, McCall's Magazine, Pictorial Review, True Story Magazine, Shadowplay, New Outlook, Real America, and others. For complete list and details see large display on page five of this week's edition of the News.

Pettys Return From Washington

Waukegan High School Head Appointed Nat'l. Director

Returning Sunday from a ten days conference of the National Educational Association at Washington, D. C., Mr. and Mrs. W. C. Petty and two sons report a highly pleasant and worthwhile trip.

County Superintendent Petty attended the session as a delegate from the North Shore division of the Illinois State Teachers' Association. He said that hundreds of delegates attended the convention, which was one of the most varied and informative ever held.

Petty was pleased to announce that John W. Thaiman, superintendent of the Waukegan high school, was named national director of the National Educational Association. In his position he will schedule all of the national, state and district meetings, and will take part in the supervision of the sessions.

H. W. Smith of Indianapolis was elected national president.

It has not been announced where the convention will be held next year, although the committee is considering Denver, Colorado.

Miss Grace Pederson began work Friday as an assistant in MariAnne's Dress Shoppe.

Miss Helen Simonsen, Chicago, is spending her vacation with her parents, Mr. and Mrs. S. Simonsen. She will return the 15th.

Bernice Sherman who was graduated from the eighth grade this spring, has been confined to her home with illness for the past few weeks.

Local Men Hear Wallace At Institute Of Cooperation

Harry Tillotson, C. L. Kuttli, Gordon Bonner, and Clarence Sheen attended The American Institute of Cooperation last Wednesday at the University of Wisconsin, at Madison.

They heard a discussion on selling milk as a public utility, led by a Canadian authority from Winnipeg where milk is a public utility.

The big feature of the program was the talk by Secretary of Agriculture Wallace who talked on the reopening of the foreign markets.

SEARCH FOR FIVE WOODSTOCK JAIL-BREAKERS CONTINUES

Saw Through Bars—Sheriff Blames the County Board

The five prisoners who successfully sawed their way out of the Woodstock jail Sunday morning are still at large, according to latest reports. However, one of the fugitives, Charles Taylor, an ex-convict, Tuesday submitted a letter to the Chicago Herald and Examiner stating that in return for the release of his wife, Emma, he would surrender and plead guilty to a charge carrying a one to ten year sentence.

Taylor stated in the letter that his wife was innocent of participation in the \$10,000 jewel theft from the Crystal Lake home of John Barrett, International Harvester Company official. He asks that his proposal be submitted to State's Attorney V. S. Lumley.

Use Saws and Picks In reconstructing the escape, jail officials said that the men had sawed through a one-fourth inch steel partition between cells in order to get in to the bullpen. Working their way on top of the bullpen, they crawled along the cell brocks to the main office, where they cut a wire mesh to enter. They reached the basement by picking a lock and sawing bars, and escaped.

Those who escaped were:

Henry Odenbreit, Waukegan, held for forging checks in Hebron.

John Enos of Springfield, accused of robbing banks at Huntley and Union.

Charles Taylor, formerly of Crystal Lake, brought back from Oregon with his wife, Emma, to be tried on a charge of stealing jewelry from the home of John Barrett, Crystal Lake, where they were employed.

Ellsworth Fowler of Woodstock, charged with the theft of an automobile.

Joseph Levonlan of Woodstock, indicted on an arson charge.

Enos and Taylor are ex-convicts. Mrs. Taylor did not attempt to escape, and several others being held for minor misdemeanors also remained.

The fugitives were able to work unmolested and unobserved, as the jail is unguarded at night, Sheriff Lester Edmister said.

Can't Afford Night Turnkey Edmister placed the blame for the escape on the McHenry County Board, because of its refusal to provide a night turnkey for the jail.

He stated that he had repeatedly requested the appointment of a night jailer, pointing out the danger of the jail being fired, a prisoner dying, or of jail breaks, but the board had declined to consider the matter on the plea of economy.

Enos had been held in the jail since last January, without being brought to trial. State's Attorney V. S. Lumley, prosecutor, charged the delay to the fact that Enos is represented by two members of the general assembly, William Carroll of Woodstock and Roland Libonatti, Chicago.

Under the law, a defendant with a state representative for counsel cannot be forced to trial while the legislature is in session.

Before receipt of Taylor's letter, it was suspected that the plot had been furthered by friends of Enos, a young

THOUSANDS WILL SEE FAMOUS FLOWERS AT GRASS LAKE

Many World's Fair Visitors Expected to Visit Famous Beds

First blossoms of the famous lotus beds on Grass Lake appeared a few days ago according to George Wolf, long a resident of the region.

Due to dry weather and low water the blooms are appearing early this year, according to residents. Ray Pregoner stated that the blooms would be plentiful next week, and that they would reach the height of their glory toward the end of July, when the entire beds will be in full bloom. The beds extend over nearly one thousand acres.

Pregoner predicted that this year will witness the greatest profusion of blooms in history. This prediction is hailed by resort owners and excursion boat operators, who anticipate that thousands of World Fair visitors from other states and countries will make pilgrimages to the shrine of the lotus. These famous flowers are said to grow in only three places in the world—Egypt, China, and Grass Lake.

Famed in Legend

The lotus flower is a rare and beautiful plant often made the theme of poetical expressions and is peculiar in that its pungent odor tends to induce slumber. Ancient Egyptians were often called "lotuseaters." The wine they made from the lotus was supposed to cause a state of dreamy content and complete forgetfulness of home and friends.

Tower Is Erected

A more picturesque element has been added this year with the erection of a lotus observation tower by Jack O'Connor, resident of Blarney Isle, who for many years has been known as "the king of the lotus."

The tower is erected on the water's edge on the lake from which may be seen over 2,000 acres of water. Visitors to the beds this year will have the opportunity of observing the blooms from the height of the tower, securing a real "bird's-eye" picture of the scene.

Signs Guide Tourists

The Grass Lake Lotus Association last year erected over 300 metal signs along highways directing tourists to Antioch and the lotus beds. The signs were placed on highways from Chicago, Elgin, Rockford, Beloit, Madison, Milwaukee, Kenosha and other main thoroughfares leading to the Chain of Lakes.

It is expected that the lotus season will extend until the end of August.

woman, blond, having visited him last week.

Insists She's Innocent

Mrs. Taylor, upon questioning denied any knowledge of the plan to escape. She also denied knowledge of the robbery, insisting that she was waiting at a railroad station when the burglary was committed and did not even know that her husband had stolen the jewelry when he induced her to pawn two of the pieces.

May Consider Proposal

State's Attorney Lumley said that he would be inclined to recommend leniency to Mrs. Taylor, if Taylor was willing to surrender and aid in the recovery of the jewelry.

In his letter, Taylor said that he was eager that his wife return to take care of their son, Charles, 11, who is in the care of Chicago relatives.

He asserted that the jewel theft was not his fourth crime, contention of the state in its intention to jail him for life as a habitual criminal, but records at Woodstock showed that he had served terms in Maryland and at Joliet for forgery and jumped bail on a Chicago confidence game charge in 1919. Taylor claimed he had not been arrested in twenty-two years.

Although the Barretts, who formerly employed Taylor and his wife, listed thirty-two pieces of jewelry as stolen and gave a valuation of \$10,000 Taylor said he had obtained but \$448.50 in pawning his loot.

SAVE 41 PER CENT ON A MODERN HOME

A recent estimate says that half of the remaining unemployment in this country is due to the dormant state of the construction industry. In normal times, building employs many millions of men either directly, or through the purchasing power it creates. Today no industry is more depressed.

It is hoped that the passage of the home-building act by the late Congress will start machinery for stimulating building at last. Close to two billion dollars worth of potential private capital may be put to work. One of the great bane of the prospective builder—steep interest rates and premium charges on second mortgages—will be eliminated, according to the plan. Prices for materials are low, the bargain time for building is still here. The editor of the American Builder said a short time ago that a saving of forty-one per cent, as compared with normal costs, is offered the present-day home builder.

A soundly built, up-to-date home is one of the best investments the average man can make. Modern methods, materials and plans make a small home more comfortable, efficient and useful than was the large home of a few years ago. Get in at the bottom—depression prices are not going to last forever.

REPEAL PRESENTS NEW PROBLEMS

Prohibition created many problems. Among them were growth of lawlessness, an increase in drinking among many classes of society. Repeal of prohibition was, according to the hopeful, expected to do away with the bootlegger, lessen drinking of hard liquor.

It hasn't done that. According to observers, the bootlegger continues to supply close to half of the nation's drinkers. And, as reports from police departments show, drunkenness and allied misdemeanors are on the increase.

The result is that conscientious "wets" are worried, are seeking to find a solution to the new problems that have come with repeal. They know that if present affairs continue, it is almost certain that the country will once more vote for national prohibition. There is every reason to believe that many persons who voted to repeal the 18th amendment in the hope that it would end once and for all a grave national issue, would vote "dry" now. A few weeks ago North Dakota voted on the liquor question—and two voters out of three were against legalizing the sale of liquor.

Consequently, the liquor problem is up in the air, and both sides are getting ready to do battle. One great trouble is the lack of uniformity in state laws—in one state there are commonwealth-owned liquor stores, while across the border bars run wide open. The Federal government has no jurisdiction over liquor save in the matters of tax evasion and protecting dry states.

Still another problem is presented by the quality of "repeal liquor." Bonded whiskey is exceedingly expensive—about seven dollars a quart. Most of the blends now on the market are a poor grade, many

believe them to be inferior to pre-repeal moonshine. The public has been skeptical, and has bought much less liquor than was anticipated.

FOR THE COMMON WELFARE

The principal reason for the existence of the farm cooperatives is to benefit their members by stabilizing markets and raising prices to levels where producers are able to make a reasonable profit.

At the same time, the public at large obtains just about as many benefits from successful agricultural cooperation as do the farmers themselves.

No one gains when agriculture is profitless. The farm is the greatest single market in normal periods for the products of our factories—the great bulk of urban industrial workers can trace their employment directly or indirectly to the farm consumer.

A constant supply of agricultural goods is essential to our national life—and when markets are disorganized, and prices are in the basement, the farmer is unable to efficiently keep the great machinery of production and distribution going.

The thinking public is solidly behind the cooperative movement, and a wide measure of the success it has achieved in the face of great obstacles, may be attributed to that. Urban and rural groups have the same objectives, and they must pull together for the common welfare.

"We need many reforms . . . but with production, which is the source of all incomes, still about 40 per cent less than in 1929, what we need most of all is a renewal of private initiative and private investment, a consequent restoration of normal production and employment."—Samuel O. Dunn.

TAXES! TAXES! TAXES!

Congress has adjourned. But the eyes of the public are still turned on Washington. And most of them, figuratively speaking, are fixed on the treasury building.

The last Congress, like its predecessor, was extraordinarily expensive. It appropriated billions, and the budget, which has contained a wide gap between income and outgo for some time, is still further out of joint. In brief, legislative activities of recent months have done nothing to mitigate the tax problem—they have made it considerably more imposing than it was.

It may be taken for granted that much of the money appropriated will serve one good purpose or another. Perhaps none of it will be wasted. That, at this time, is beside the point. We are reaching the stage where businesses and individuals can no longer pay heavier tax levies—and where many relief activities, because of their cost, are hampering, not forwarding, recovery.

Government is precisely like an individual. Every citizen knows of useful things he would like to buy. He can't buy them because he hasn't the money. It isn't a case of what he wants to do—it is a case of what he can do with the means at his disposal.

We have lost sight of that individualized idea of government spending and states, counties and cities have been even worse offenders than the federal government itself. It is an unquestioned fact that investors are putting money into tax-free bonds, where it does nothing for the sake of industry, because of the fear that taxation will continue to take most of the profit out of private business. Jobs are lost, factories are closed, homes are foreclosed, industrial development is brought abruptly to a halt—because of high taxes.

These are facts, not hot air. Cost of government is our greatest and fastest growing problem.

Church Notes

CHRISTIAN SCIENCE CHURCHES

"Sacrament" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 8. The Golden Text was, "The bread of God is he which cometh down from heaven, and giveth life unto the world" (John 6:33).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "O Lord, open thou my lips; and my mouth shall shew forth thy praise. For thou desirest not sacrifice; else would I give it: thou delightest not in burnt offering. The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise" (Psalms 51:15-17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "We worship spiritually, only as we cease to worship materially. Spirituality is the soul of Christianity. Worshipping through the medium of matter is paganism. Judicial and other rituals are but types and shadows of true worship" (p. 140).

Sister of Mrs. Williams Celebrates Her Ninetieth Birthday in Kansas Home

Mrs. O. E. Munson, sister of Mrs. D. A. Williams of Antioch, recently celebrated her 90th birthday at Jennings, Kansas, on the farm which was homesteaded by her late husband, a civil war veteran, in 1879. Mrs. Munson has lived on the farm for over 55 years.

Mrs. Williams wrote the following letter to her sister on the occasion of her birthday, the same having been reprinted in the Jennings Gazette, together with a poem written by A. C. Wilson, a resident of Jennings:

My Dear Dear Sister:
This must be a good letter for it is being written to the best woman I know. The most honest, loyal, brave and loving. The one who cared for a dear sick mother, and then for two motherless little girls who could never repay her for what she did for them and when she became a wife and mother was always the same. Absolutely upright and brave faithful woman.

Surely her children shall "arise and call her blessed." Her neighbors also will never forget her kindness to them through their trying pioneer days. Always so brave and honest and truly helpful to them.

Thank God there are still a few such old fashioned women left to be a blessing to all humanity, and I believe there will soon come a time when there will be many more, as people realize more of the true values of life, and the many of us may soon have to meet the greatest adventure of life, we can still be hopeful and brave. I want to send my best love to you and yours and to every kind friend who will greet you on your 90th birthday, and to congratulate them too that they have known and owned such a friend and mother. Words cannot express my love for you my sister Eliza.

From your loving sister,
Addie H. Williams.

Mrs. A. J. Felter went to Kenosha this morning to consult her doctor about the condition of her eyes.

Personals

Use good fruit, free from bruised, discolored spots, if possible selecting fruit picked in dry weather.

2. Have the fruit barely ripe or even slightly underripe and avoid using overripe or even fully ripened fruit unless commercial pectin is to be added, as fully ripened fruit loses a large percentage both of its acid and pectin, the last named being the jellying principle.

3. Measure both fruit and sugar very carefully, carry through the various processes as quickly as possible; fruit juice should not stand in a warm place for any length of time as fermentation is apt to set in, while too long heating has the same bad effect, that is, deprives the fruit pectin of its hardening power.

4. Cook the jelly quickly and seal while still hot.

Essentials in Jelly Making

Four ingredients are necessary to insure perfect jelly—fruit juice, sugar, acid and pectin. When these are combined in exactly the right proportions and cooked to exactly the right degree, a perfect jelly results. Perfect jelly should be clear and transparent, of rich fruity flavor and firm enough to hold its shape when turned from the glass, but tender and soft in texture rather than extremely firm or tough.

The jelly bag on its stand is convenient but not absolutely necessary; a fine cheesecloth or cotton flannel conical jelly bag will be found satisfactory. The stand makes it a little more convenient to work with. Measuring cups and scales are necessities.

Local Teacher Wins Prize In National Essay Contest

In a contest sponsored by The Horse and Mule Association of America, C. L. Kutli, local High School teacher, was one of twelve winners, when he submitted his essay of 100 words or less on the subject, "Why Horses and Mules Are the Economical Farm Power."

Mr. Kutli was presented with a valuable set of fly nets manufactured by The Algoma Net Company of Algoma, Wisconsin.

His winning essay reads as follows: Horses and Mules Are Best Farm Power

Horses and mules consume the slightly less clear juice can be secured by this method.

How to Whip Evaporated Milk for Frozen Desserts

Evaporated milk is whipped stiff like cream if the following method is used:

Pour the necessary quantity of evaporated milk into the top of a double boiler and heat over boiling water to boiling point. This will thicken the milk by evaporating some of the water from it. Due to the evaporation of water, a film or glaze of milk solids will form at the surface. Some of this may settle at the bottom. This should not be discarded, as it will blend smoothly with the rest during the whipping and will aid in stiffening the milk. When the milk has reached the boiling point it should be cooled quickly by setting the container in cold water. Chill thoroughly in the bowl surrounded by chilled ice and coarse salt. Whip until stiff with a rotary beater.

Banana Cream

6 ounces (¾ of cup) evaporated milk, prepared for whipping.
3 well ripened bananas (deep yellow, well flecked with brown spots).
2 oz. (¼ cup) orange juice.
4 oz. (½ cup) sugar
Few grains salt.

Chill milk in bowl, surrounded by chilled ice and salt. Peel bananas and remove outside fibrous layer by scraping off with outside of knife.

THE THIN MAN CAST HAS LOTS OF NEW FACES

New faces believes Director W. S. Van Dyke, are one of the most refreshing things about motion pictures.

And because it is his belief, Col. Van Dyke has insisted that a host of new faces should make their debut in the Metro-Goldwyn-Mayer-Cosmopolitan picture, "The Thin Man," which is to be shown Sunday, Monday and Tuesday at the Kenosha Theatre.

"The public is always demanding new faces," said Van Dyke. "They are a tonic to the theatre audiences that enjoy following the careers of actors from their beginning."

"In 'The Thin Man,' Producer Hunt Stromberg has supplied me with many new faces—probably more than have been seen recently in any motion picture."

William Powell and Myrna Loy head the cast, which also includes Maureen O'Sullivan, Nat Pendleton and Minna Gombell.

MARVELOUS NEW "G-3" GOODYEAR ALL-WEATHER

Look What You Get—No Extra Cost: 43% More Miles of real non-skid safety... Flatter Wider Tread... More Center Traction (16% more non-skid blocks)... Heavier Tougher Tread (average of 2 lbs. more rubber)... Supertwist Cord Body (supports heavier tread safely)

We've never seen the equal of it—the way car owners have flocked in, looked, listened, bought new G-3's these last ten weeks—and it's the same everywhere we hear. What's more, people who got G-3's months before the public announcement, report it's better than claimed! They cite mileage records to prove they're getting better than the 43% more non-skid mileage averaged by Goodyear's test fleet. Buy no tires until you let us show you this wonderful new Goodyear All-Weather which gives so much more safety and service without costing you a cent extra!

Sure, we have Goodyears at ALL Prices! Because Goodyears are the largest selling tires, you get more for your money no matter what you pay.

Tremendous welcome—huge sales—follow announcement of sensational new Goodyear tire—keeps us and factory on jump—Users say "43% more non-skid mileage" understates it.

FORMER LAKE VILLA PASTOR RETURNS FOR VISIT FROM MAINE

Use Fire Extinguisher on Oil Stove to Prevent Serious Fire

Rev. C. J. Hewitt, who has been teaching in the Theological Seminary at Bangor, Maine, returned to our village last Wednesday to spend the next few weeks with his family here, and on Saturday, his older son, Merrill and wife of Blue Island, Ill., came for a few days' visit.

When Harold Dixon started an oil stove in the basement of the Manzer building where he conducts a grocery store early last week, it did not work well and blazed up after he had left it. Mrs. Madison, who lives next door, discovered that it was too high and Carl Reinbach came over with his fire extinguisher and did some quick work while Mr. Dixon disposed of the stove and tank, thus averting what might have been a serious fire.

Clare Hewitt spent the first of the week in the St. Therese hospital and had tonsils and adenoids removed on Monday. He is recovering nicely.

Mr. and Mrs. Fred Hamlin were Waukegan visitors on Monday.

Mrs. G. Swanson and Miss Elsie spent Monday afternoon in Waukegan.

The Oldstone service station has been moved to the location nearly opposite the cemetery, and Walter Paske has leased the building formerly used by the Oldstones as a refreshment stand.

Rev. Hewitt was one of the speakers on the program at the Greenwood celebration last Wednesday. Mrs. Hewitt and Clare accompanied him on the trip.

Mrs. Frank Nader is spending the

week with her son, Henry Nader and wife in Kenosha. Henry recently broke his leg and infection makes his case rather serious.

Mr. and Mrs. Clayton Hamlin and Bruce of Chicago spent the Fourth with Mr. and Mrs. Fred Hamlin, and Bruce remained for several days.

Miss Ruth Perry is enjoying a two week's vacation with friends from Jacksonville, Ill., who are at their cottage in the Wisconsin woods at Oosburg on Lake Michigan.

Miss Anna Seelck who has been in the Lake County hospital for several weeks, is at the home of her sister, Mrs. Helm, and doing nicely.

Mrs. Harriet Mitchell and Mrs. George Mitchell of Chicago, Mrs. Edgar Kerr and her five month old son, Jack, of Bloomington, Ill., spent the past week with Mr. and Mrs. James Kerr, while Mr. Mitchell and Edgar Kerr with Helen Ann Mitchell and Jean Kerr spent the week at Three Lakes, Wis., at the Ray Kerr summer resort, fishing.

Mr. and Mrs. Necker have moved into the Fred Hamlin flat. Mr. Necker is employed at the Reynolds kennels.

The Official Board of the church met at the parsonage Monday evening, and on Tuesday evening, July 17, the District Superintendent, Dr. Moore will be out to conduct quarterly conference at the church. It is hoped that every member will be present.

Miss Ruby Falch is in Evanston taking a six weeks' course at the National Kindergarten there. She has been quite ill but has recovered sufficiently to be able to go on with her work.

Delbert Sherwood with a party of friends from Barrington, attended the World's Fair in Chicago this week.

Mrs. Mary Dalrymple is improving slowly, though still confined to her bed.

The Snyder and O'Sadnick boys who are recovering from an accident early last week at the St. Therese hospital, are doing nicely, and Maurice O'Sadnick will not lose his hand as was at first feared.

OBSERVE FOUR RULES IN JELLY MAKING

Fruit Juice, Sugar, Acid
and Pectin Necessary
Ingredients

Jelly making is often dreaded as being a difficult and uncertain process, but if the principles underlying it are clearly understood, there is rarely any reason for failure. The basic rules are few and simple.

1. Use good fruit, free from bruised, discolored spots, if possible selecting fruit picked in dry weather.

2. Have the fruit barely ripe or even slightly underripe and avoid using overripe or even fully ripened fruit unless commercial pectin is to be added, as fully ripened fruit loses a large percentage both of its acid and pectin, the last named being the jellying principle.

3. Measure both fruit and sugar very carefully, carry through the various processes as quickly as possible; fruit juice should not stand in a warm place for any length of time as fermentation is apt to set in, while too long heating has the same bad effect, that is, deprives the fruit pectin of its hardening power.

4. Cook the jelly quickly and seal while still hot.

Essentials in Jelly Making

Four ingredients are necessary to insure perfect jelly—fruit juice, sugar, acid and pectin. When these are combined in exactly the right proportions and cooked to exactly the right degree, a perfect jelly results. Perfect jelly should be clear and transparent, of rich fruity flavor and firm enough to hold its shape when turned from the glass, but tender and soft in texture rather than extremely firm or tough.

The jelly bag on its stand is convenient but not absolutely necessary; a fine cheesecloth or cotton flannel conical jelly bag will be found satisfactory. The stand makes it a little more convenient to work with. Measuring cups and scales are necessities.

Iron and tin saucepans are not satisfactory because they are likely to affect the color of the fruit juices. Be sure to use pans and kettles which are broad-based to insure rapid evaporation, and large enough to avoid any likelihood of the contents boiling over.

Cook the fruit or fruit and water until the juice flows freely, stirring and crushing while cooking. Turn into a jelly bag and allow the juice to drip through. For the clearest jellies, do not squeeze. If, however, quantity rather than extreme quality is desired, the fruit may be squeezed in the bag as soon as cool. In any event, a second batch of excellent but slightly less clear juice can be secured by this method.

How to Whip Evaporated Milk for Frozen Desserts

Evaporated milk is whipped stiff like cream if the following method is used:

Pour the necessary quantity of evaporated milk into the top of a double boiler and heat over boiling water to boiling point. This will thicken the milk by evaporating some of the water from it. Due to the evaporation of water, a film or glaze of milk solids will form at the surface. Some of this may settle at the bottom. This should not be discarded, as it will blend smoothly with the rest during the whipping and will aid in stiffening the milk. When the milk has reached the boiling point it should be cooled quickly by setting the container in cold water. Chill thoroughly in the bowl surrounded by chilled ice and coarse salt. Whip until stiff with a rotary beater.

Banana Cream

6 ounces (¾ cup) evaporated milk, prepared for whipping.

3 well ripened bananas (deep yellow, well flecked with brown spots).

2 oz. (¼ cup) orange juice.

4 oz. (½ cup) sugar

Few grains salt.

Chill milk in bowl, surrounded by chilled ice and salt. Peel bananas and remove outside fibrous layer by scraping off with outside of knife.

Mash bananas with wooden spoon, then force quickly with a potato ricer. It is essential that this be done at once to prevent bananas from discoloring.

There should be one cup of pulp, add orange juice, sugar and salt to pulp. Stir thoroughly to dissolve sugar and salt. Then chill in ice box ten to fifteen minutes. Whip milk until stiff. With wooden spoon fold in banana mixture lightly but thoroughly into whipped milk until well blended. Turn immediately into cold freezing pan and place in refrigerator. Required 3 to 8 hours to freeze.

Freezing may also be done in an ordinary ice cream freezer.

Ten Million People HELPED
TO BUILD THE TIRE SENSATION of '34!

Beyond Comparison in Quality,
Construction, Appearance and Price
With Any First Quality Tire Made

THE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress Tire.

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blowout Protection, Non-Skid Safety, and Long Wear at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We know there was only one way to build Quality and Value into a tire at a moderate price, and that was by volume production. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

CHECK THESE AMAZING VALUES

Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee
